Passionate about web development, with strong knowledge in frontend and hands-on experience in mobile development. Currently expanding my backend skills with the goal of becoming a full-stack developer—combining a comprehensive understanding of the development lifecycle with the ability to build scalable, high-impact solutions

Strong frontend knowledge in **TypeScript, JavaScript, HTML5, CSS3, React, Next.js, TailwindCSS** and **Redux**

Familiar with **Angular, Vue** and **Astro**

Backend foundations in **Java/SpringBoot, TypeScript/Express.js** and **Python/Flask**

SQL database management using **MySQL, PostgreSQL** and **SQLServer**

Advanced mobile development skills with **React Native**

Intermediate desktop development using the **Qt** framework with **C++** and **Python**

IMPULSA STUDIO | San Isidro, Lima

Frontend Developer Pre-Professional Intern | October, 2023 – September, 2024

Developed and optimized the [TuCambista](#) website and web application, improving user experience and ensuring a responsive design.

Strengthened frontend skills through projects built with Next.js and React, applying best practices in TypeScript, HTML5, and CSS3.

Collaborated on backend functionality integration using C#/.NET and SQL and supported deployments on Microsoft Azure.

Software Engineer Junior | October, 2024 – Currently

Promoted after one year as an intern, taking on more complex tasks in frontend and mobile development. Led major improvements in TuCambista's mobile app, including React Native upgrades, critical migrations from Observable to Redux Toolkit, and performance optimizations. Also contributed to projects such as [No Hay Sin Suerte](#).

EDUCATION

Software Engineering | Peruvian University of Applied Ciencias | August, 2020 – July, 2025

Bachelor's in Software Engineering. Top-third academic ranking. Member of the Academic Excellence Group (GEA) and the Competitive Programming Group (GPC)

Python for Everybody Specialization | Coursera – University of Michigan | June, 2023 [[Certificate](#)]

Learn SQL Basics for Data Science Specialization | Coursera – University of California, Davis | June, 2024 [[Certificate](#)]

Relational Database Design with MySQL | Mastermind | February, 2023 [[Certificate](#)]

Everything about the web with PHP | Mastermind | February, 2023 [[Certificate](#)]

Introduction to Frontend Frameworks with Vue 3 | Mastermind | February, 2023 [[Certificate](#)]

English Proficiency: Intermediate (B1, TOEIC Bridge 166/180) | WeTalk UPC | November, 2022 [[Certificate](#)]
